

## PRIMES

PREVENTING DROUGHT  
RISKS BY MAKING RESILIENT  
COMMUNITIES IN THE  
ADRIATIC-IONIAN REGION

**This project is supported by the Interreg IPA ADRION programme under the Interreg Funds (European Regional Development Fund and IPA III)**

The PRIMES Project aims to build drought risk resilient communities throughout their full engagement and proactive participation in implementing joint prevention strategies and local community water management plans. It provides an innovative cooperation framework where both organizations, institutions as well as final users (industries, citizens, families, farmers, etc.) cooperate for improving, as community, their daily water footprint and their preparedness to prevent the drought risks.

**Project budget  
in EUR**

1.496.294,34

**INTERREG  
funding in EUR**

1.271.850,18
